

DriverCheck Inc. and ISB Corporate Services Announce the Launch of ICHECK™ Drug and Alcohol Testing and Pre-employment Screening Services.

DriverCheck Inc., the Canadian leader in drug and alcohol testing in the transportation industry and ISB Inc., the Canadian leader in source document acquisition, are pleased to announce the launch of ICHECK™, a program that provides a single source for all customers to obtain drug and alcohol testing and pre-employment screening services.

Through ICHECK™, DriverCheck clients and the Canadian transportation industry in general can now access a full suite of pre-employment and ongoing-employment background checks such as criminal records, driver abstracts, CVOR's, credit checks and previous employment verifications, among other documents and services. In addition, ISB now offers a full suite of drug and alcohol testing to current and future ISB customers through DriverCheck.

"DriverCheck has long recognized that our drug and alcohol testing clients have a need for pre-employment screening." says Dr. Chris Page, President and Medical Review Officer of DriverCheck. "In the context of health, safety, and security, the transportation industry continually requires that the highest standards be met for all drivers and staff. Accelerating the hiring process while quickly identifying the best qualified candidates is a significant piece of the solution. Partnering with a professional organization like ISB Corporate Services gives us the confidence that we are delivering a fast, economical and thorough pre-employment screening service to our customers."

"DriverCheck customers overwhelmingly appreciate the quality service that DriverCheck provides to them." adds Michael Damm, President of ISB Corporate Services. "I am excited to be working with a company who shares our commitment to excellent customer service."

The collaboration between DriverCheck and ISB provides customers with a high quality, comprehensive pre-employment screening solution, with 24 hour turn-around on most orders.

About DriverCheck
